Why are major news outlets like the @Te egraph giving platforms to rape apologists? Feminists?

"We had unfortunately some very brutal cases in autumn," he sa d "I don t know so wel other cultures but I have recognised that the thinking of some of them is very d fferent Some of them maybe think that t is al owed to be aggressive and touch ladies on the street "

Jame Saitne, a Finnish-speaking raqi sa d that from what he had seen on Arab c soc a media, po ice had wrongly portrayed events

"What happened was not the resu t of an acton planned in advance " he to d the Telegraph " t was total y expected that young men wou d go to the centre of the capital as that s the best place to celebrate New Year's Eve "

m not accusing the po ice of rac sm, but maybe they have received comp aints ntended to smear peop e "

The rapes have fue led anger among some Finns at last year's record asy um figures with the country registering the fourth highest number per capita in the European Union

Religion poisons everything.

and of the unknown, and of each other. For this reason, I would not prohibit it even if I thought I could. Very generous of me, you may say. But will the religious grant me the same indulgence? I ask because there is a real and serious difference between me and my religious friends, and the real and serious friends are sufficiently honest to admit it. I would be quite content to go to their children's bar mitzvahs, to marvel at their Gothic cathedrals, to "respect" their belief that the Koran was dictated, though exclusively in Arabic, to an illiterate merchant, or to interest myself in Wicca and Hindu and Jain consolations. And as it happens, I will continue to do this without insisting on the polite reciprocal condition—which is *that they in turn leave me alone*. But this, religion is ultimately incapable of doing. As I write these words, and as you read them, people of faith are in their different ways planning your and my destruction, and the destruction of all the hard-won human attainments that I have touched upon. *Religion poisons everything.*

Feminists respond to Muslim migrant mass molestation by blaming "German born men". I truly despair. #Cologne

"No one is talking about the fact that this is happening to women every day" Tunja an activist and one of the initiators of the event told DW

"People are insisting on making this a political story trying to shift the focus on pro- or anti-refugees But in fact, no one is listening to what we have to say the women who suffer from this violence in the streets on a daily basis long before refugees even came here " she says

Many of the assaults took place around the main

The violence on New Year's Eve was not different from any other big scale celebration in the city according to Tanja "Because refugees are now a burning topic the media all of a sudden report about these events but what nobody wants to admit is that these things happen all the time I'm sorry to break this to you but German-born men also harass and rape "

Whether it's rape or not is dependent on the ethnicity of the rapist.
breitbart.com/london/2016/01 ...
#Cologne

2. Rape is not always rape

Remember in the West rape is only rape under certain conditions if the attacker is white if he identifies as male (as opposed to "trans", in which case rape is permissible or at least excusable) if you were stinking drunk at the time and he is a Welsh footballer if you attended a party at a US university frat house if you woke up with a hangover and have been told by your college Women's Officer that you now regret what you did last night. If you are an attention-seeking, tiara-dress-carrying, man-hater, if you are Lena Dunham

If, however, the alleged perpetrators of Muslim extraction and most especially if you are a twelve or thirteen year old girl in the North of England then the authorities are likely to look more leniently on the alleged crime which isn't a crime at all really. More a vibrant expression of cultural differences

Why regressive leftists refuse to criticize Islam. #RegressiveLeft

1) Liberals don't hate evi They hate people who hate ev l

2) Liberals blame us for bringing terror sm on ourse ves and be.ieve that jihadists won't pick on us f we just bury our heads in the sand and don t give them a reason

3) Liberals think it makes them look like good people if they embrace other cultures Looking ike good people s more important to them than actually be ng good people

4) Utopianism is the heart of iberalism In the liberal utop an fantasyland every culture on the planet gets along There s no place for bombing jihadis in the utopia

5) Liberals are pussies and don't want anyone poking the bear because they don't pack the gear to kill the enemy when it gets its feelings hurt

6) Liberals only hate white people engag ng in misogyny or homophob a It's important enough to them to showcase their love of non white people that they extend their ideal of "tolerance" to ignoring the enslavement of women and the execution of homosexua s when non white people do it

Paul Joseph Watson minutes ago
When right wing fundamentalist Christians like the Westboro Baptist Church espouse hatred for gays, adulterers and anyone who rejects their God, progressives react with scorn

They chastise such beliefs for being outdated, intolerant and dangerous And rightly so.

Yet when Muslims espouse the very same beliefs, self-proclaimed liberals suddenly lose all their liberal convictions and either remain silent or viciously attack critics of Islam.

[illegible]

I have reported your channel for hatred abuse harassment and violence against Muslims and islam
Your channel is immature as your speech. you have no idea what is islam and you are not considering your sins against Muslims
You are not even discussing how the west has helped in the emergence of Terrorist organizations that you refer to as Muslims. Ignoring the political side of the issue and knowing nothing about islam. I am confident to say that your channel is based only on
hatred and islamophobia. Unfortunately, more immature westerners have joined you. All your videos are irrational and hateful
For all these reasons your channel should be shut down.

By preventing liberals from feeling safe to criticise Islam, the left has amplified the voices of neo-nazis.

ISLAM AND THE FUTURE OF TOLERANCE

Harris I agree with everything you just said. I once wrote an article titled "The End of Liberalism" in which I observed that these "fellow-travelers" have made it nearly impossible for well-intentioned, pluralistic, liberal people to speak honestly on this topic—leaving only fascists, neo-Nazis, and other right-wing lunatics to do the job. On some occasions the only people making accurate claims about the motivations of Islamists and jihadists are themselves dangerous bigots. That's terrifying. We have extremists playing both sides of the board in a clash of civilizations, and liberals won't speak sensibly about what's happening.

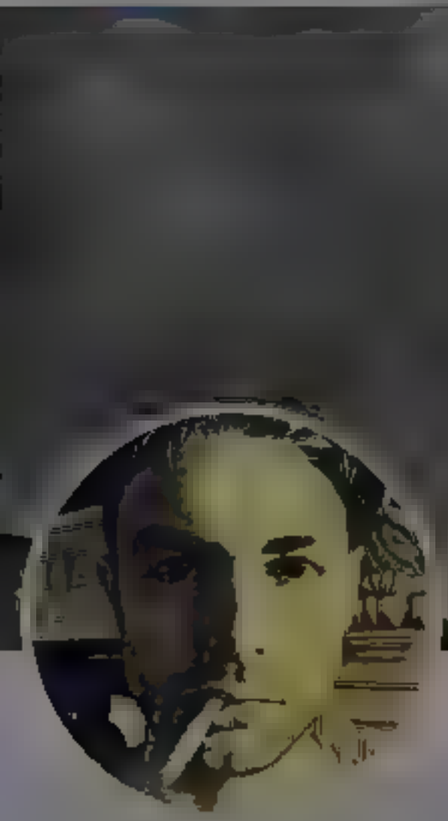
The UK is the best country for free speech in the world.....if you're a hate-spewing Islamist.

But the United Kingdom is populated by people who will sign a petition in their hundreds of thousands to ban Donald Trump from entering the country for his thoughts on stemming Muslim immigration while saying nothing about Anjem Choudary, a radical Islamist who routinely appears on British television to express his support for terror st attacks and the Islamic State, as well as his desire to see all homosexuals stoned to death.

The United Kingdom is run by a government which treats rad o host Michael Savage as a security threat with zero justification while local councils across the country cover up Muslim pedophile rings for fear of appearing 'politically incorrect'

The United Kingdom is a place where politicians are being arrested for reading out Winston Churchill quotes in public while Abu Qatada, once described as the spiritual head of Al-Qaeda in Europe, is allowed to stay in the country for over a decade at an expense to taxpayers of around £3 million pounds



The United Kingdom is a place where British citizens who plan to attend 'draw Muhammad' cartoon contests are arrested, while Islamists who walk around centra London waving ISIS flags are set free

Looking forward to Boris Johnson walking around Muslim ghettos at night not surrounded by police & 20 news cameras.

Trump's campaign flip-flopped on whether travel ban would apply to Muslims who are U.S. citizens. Here's the update.

> Asked by The Hill whether that would include American Muslims currently abroad, Trump spokeswoman Hope Hicks replied over email: "Mr. Trump says, 'everyone.' "
>
> During a Tuesday morning **interview** with ABC's "Good Morning America," however, Trump clarified that American Muslims would still be able to travel freely under his plan.

Paul Joseph Watson

[illegible]

Things Donald Trump is wrong about

- Banning a l Musl m imm gration (including American Mus.ims). The idea of not a lowing Muslims who are Amer can citizens to return to the country is a complete violat.on of constitutiona r ghts

A better dea would be to .imit al imm gration from des.gnated countries to sk.led abor on y. The argument that this would ead to an econom c co lapse has been completely d sproved by countries like the Czech Republic, which has virtually no imm grat on yet whose economy s thriving

- Torturing terrorists. Torture does not work. It only extracts false confess ons. The United States shou d not be emulating SIS or North Korea

Torturing the fam.es of terrorists. Th s is comp etely barbaric. The United States should not be emu.at ng ISIS or North Korea

Shutting off parts of the Internet. Emulating Commun st Ch na and North Korea when it comes to restrict ng freedom of speech is completely ant.-American. P us, even if the powers are only used to block "ISIS propaganda," future admin strations could abuse them to crush d.ssent

Some liberals are beginning to get it on Islam.

HelloAgain
I'm afraid this video has some truths in it. As a left-wing, Atheist, Israeli, I see the blindness of my fellow leftists regarding Islam. People need to study the Quran before they disregard people like Paul Joseph Watson, including the "non-existent" moderate muslims. They do exist, but they themselves did not go deep into the Quran, making them just secular people, basically. It's true that what is written in the Quran is different than other stupid religious books. It's much, much more violent and fucked up. He's exaggerating, but he's also right

Lot of people keep 6000 bullets & a bomb making factory on standby in case they get upset at work. #Islamophobia

At the social service center, the couple left three rigged together pipe bombs with a remote-control detonating device that apparently malfunctioned, and they had more than 1,600 rounds of ammunition remaining when police killed them in their rented SUV, Burguan said.

At a family home in the nearby town of Redlands, they had 19 pipe bombs, tools for making more, and over 4,000 additional rounds of ammunition, the chief said.

"We don't know if this was workplace rage or something larger or both," Attorney General Loretta Lynch said in Washington, echoing President Barack Obama. "We don't know the motivation."

@Partisangr Muslims do execute gays and they do stone women. As a result of shariah law & the Hadith.

From the Hadith:

Bukhari, 6:[illegible]9 (al. link) - Two people guilty of "illegal" intercourse are brought to Muhammad who orders them both stoned to death. Apparently their act was out of love since the verse records the man as trying to shield the woman from the stones.

Bukhari, 8:[illegible] - Adultery is one of three justifications for killing a person according to Muhammad.

Muslim, [illegible]4,192. This hadith clarifies the different penalties for adultery (when the subjects are married) and fornication (when they are not). *"In case of married persons there is a punishment of one hundred lashes and then stoning to death. And in case of unmarried persons the punishment is one hundred lashes and exile for one year. See also [illegible]4,19[illegible]."*

Muslim, [illegible]4,206 - A married man confesses that he has adultery. Muhammad orders him planted in the ground and pelted with stones. According to the passage, the first several stones caused such pain that he tried to escape and was dragged back.

Muslim, [illegible]4,206 A woman who became pregnant confesses to Muhammad that she is guilty of adultery. Muhammad allows her to have the child, then has her stoned. The description is graphic. *"Khalid b. Walid came forward with a stone which he flung at her head and there spurted blood on the face of Khalid and so he abused her."*

Muslim, 17:4209. A woman confesses adultery and is stoned to death on Muhammad's order.

Ibn Majah, [illegible]9 *"The adulterer must be stoned."* These words were a part of Muhammad's farewell address to his people on the occasion of his final pilgrimage to Mecca.

Islamic Law *"The stone shall not be so big so as to kill the person by one or two strikes, neither shall it be so small that it cannot be called a stone."* The victim is intended to suffer.

g What's this obsession with Nazis Christianity?

Christianity remained the dominant religion in Germany through the Nazi period and its influence over Germans displeased the Nazi hierarchy. Evans wrote that Hitler believed that in the long run National Socialism and religion would not be able to co-exist and stressed repeatedly that Nazism was a secular ideology, founded on modern science. Science, he declared, would easily destroy the last remaining vestiges of superstition. Germany "did not liberate the domination of foreign influences such as the Pope and Priests. He said were black bugs abominable in black cassocks."

During Hitler's dictatorship, more than 5,000 clergymen on the charge of treasonable activity were imprisoned or executed. The same measures were taken in the occupied territories. In France, during the Nazis forbade religious youth movements, parish meetings and actual meetings. Church bases were taken. Church schools were closed, and teachers in religious institutes were dismissed. The episcopal seminary was closed, and the SA and SS desecrated churches, religious statutes and pictures. 300 clergy were expelled from the Lorraine region. Monks and nuns were deported or forced to renounce their vows.

The Nazi leadership made use of indigenous Germanic pagan imagery and ancient Roman symbolism in their propaganda. However, the use of pagan symbolism was not of some Protestants. Many Nazi leaders, including Adolf Hitler, subscribed either to a mixture of pseudoscientific theories, particularly Social Darwinism, or to mysticism and occultism, which was especially strong in the SS.

does what is evil in the sight of the LORD your God, by transgressing His covenant, 3 and has gone and served other gods
and worshiped them, or the sun or the moon or any of the heavenly host, which I have not commanded, 4 and it is told
you and you have heard of it, then you shall inquire thoroughly. Behold, if it is true and the thing certain that this detestable
thing has been done in Israel, 5 then you shall bring out that man or that woman who has done this evil deed to your gates,
that is, the man or the woman, and you shall stone them to death. 6 On the evidence of two witnesses or three
witnesses, he who is to die shall be put to death; he shall not be put to death on the evidence of one witness. 7 The hand

ISIS manifesto reveals agenda to create Muslim "no go zones" in western cities as bases to launch more attacks

How to take, hold and expand territory:

Armed Gangs fight 'turf wars' to take and hold land/territory which is important and strategic for them. There are already 'Muslim No Go Zones' and even 'White only zones' existing within European countries. These community gaps will likely grow, but protests by neo-Nazis in Mosque areas will entice both sides to become violent to defend their neighbourhoods. This is how it will probably be done

Remember: the town does not belong to the police. It belongs to the people who live in it and work in it. If it belonged to the police, it would be a police state. If it belonged to the government, they would be at peace with us and not victimise us. We want to put so much distance between us and the police, so that it prefers to be barricaded in its police stations, far from our neighbourhoods

So now we have made a culture of Tawahhush (confronting and deterring the enemy) police, we will have some lawlessness and freedom of movement in our turf. Al Qa'idah, the Islamic State and many Mujahideen groups thrived in areas where there was lawlessness because they could buy smuggled goods from the blackmarket and train without fear of police. If police did come, the people in the area would inform everyone because this was a no-go zone for the police

ISIS manifesto calls on recruiting left-wing activists who share same goals.

nfowars com/isis-brags-abo . .

European Muslims allying with Left-wing Activists.

A growing population of left-winged activists (people who are against; human/animal abuses, Zionism, and Austerity measures etc) look upto the Muslims as a force who are strong enough to fight against the injustices of the world . It seems from the article below that many of these people (who are sometimes part of Anonymous and Anarchy movements) will ally with the Muslims to fight against the neo-Nazis' and rich politicians. They will give intelligence share weapons and do undercover work for the Muslims to pave the way for the conquest of Rome.

How will this happen?

If you have ever been at a **pro-Palestine / anti-Israel protest**, you will see many activists who are not even Muslims who are supportive of what Muslims are calling for (the fall of Zionism) **It is most likely here that connections between Muslims and Left-wing activists will be made**. and a portion from them will realise that protests are not effective, and that armed combat is the alternative So they will start to work together in small cells of groups to fight and sabotage against the 'financial elite'

The Qur'an:

Qur 4:89 "They w sh that you should disbelieve as they disbelieve and then you would be equal. therefo e take not to yourselves fi ends of them t ll they emigrate in the way of God then if they turn their backs take them. and slay them wherever you find them take not to yourselves any one of them as friend or helper."

Qur 9:11 - "B t if they repent and establish worship and pay the poor-due then are they your brethren in religion We detail Our revelations for a people who have knowledge. And if they break their pledges after their treaty that been made with you and assail your religion then fight the heads of disbelief - Lo they have no binding oaths - in order that they may desist"

Other verses that seem to support the many Hadith that establish the death sentence for apostates are Qur an verses 2:217, 9:73, 4:89, 33:61, 5:33, and 9:66.

Alarmist who said England would not exist by year 2000 due to "global cooling" is now pushing global warming. #COP21

In 197 another global-cooling alarmist Stanford Unive sity professor Paul Ehrlich who is perhaps best known for his 968 book The *Population Bomb* made similarly wild forecasts for the end of the m llennium in a speech at the ·ritish Institute for Biology "By the year 2000 the United Kingdom will be simply a small group of impoverished islands inhabited by some 70 m llion hungry people he claimed I were a gambler would take even money that England will not exist in the year 2000 and give ten to one that the life of the average ·riton would be of distinctly lower quality than it is today Of course England still exists and its population was doing much better in 2000 than when Eh ich made his kooky claims By long before 2000 Ehrlich had abandoned global-cooling alarmism in favor of warning that the Earth faced catastrophic global warming Now he is warning that humans may soon be forced to resort to cannibalism

Same alarmists now pushing for geoengineering to fix 'global warming' previously called for melting polar ice caps.

o combat the alleged man-made cooling, experts' suggested al sorts of grandiose schemes, including some that in retrospect appear almost too comical to be real. 'Climatologists are pessimistic that political leaders will take any positive action to compensate for the climate change or even to alley its effects,' reported Newsweek in its 1975 article 'The Cooling World,' which claimed that Earth's temperature had been plunging for decades due to humanity's activities. Some of the 'more spectacular' solutions proposed by the cooling theorists at the time included 'melting the arctic ice cap by covering it with black soot or diverting arctic rivers.' *Newsweek* reported

Update on Michael Nolan

I've just received this message from the Meriton Serviced Apartments Group, and I wanted to share it here

"Dear Clementine Ford

Meriton Group have now investigated the matter relating to the complaint made about Michael Nolan using inappropriate language on Facebook

Meriton Group does not condone this type of behaviour. Michael Nolan was removed from the Meriton site on Saturday 28th November pending an investigation, and as of 2.30pm today 30th November 2015, he no longer works for the Meriton Group."

Perhaps Michael will think twice next time before using his social media account to call a woman a 'slut' when she speaks out against online misogyny. These men have rarely ever faced consequences for their actions, but that's starting to change.

To anyone who suggests I have caused a man to lose his job, I'd like to say this. No. He's responsible for his actions. He is responsible for the things he writes and the attitudes he holds. It is not my responsibility to hold his hand and coddle him when he behaves in an abusive manner, just because it might have consequences for him. Women are often told to stay silent about harassment because it's not fair to ruin a man's career. Why is their behaviour our responsibility? Enough. If you enjoy exercising misogyny online, you only have yourself to blame if the people with power over your life - your bosses, friends, family etc - decide that they don't want to be associated with you anymore. The targets of your abuse are in no way, shape or form responsible for making sure your actions have no

A disproportionate number of terrorists come from highly educated backgrounds.

ISLAM AND THE FUTURE OF TOLERANCE

from the beginning of time, and they will exist until the end of time. Other communities face them as well, but this particular ideological phenomenon has arisen only in certain contexts. For example, people often blame poverty or a lack of education for radicalization, whereas experts have long known that a disproportionate number of terrorists come from highly educated backgrounds. So at sixteen I adopted an ideological worldview that froze my sense of grievance and turned it instead into dogma. I then began recruiting heavily for Hizb ut-Tahrir, I bear my fair share of responsibility for promoting the notion of a theocratic caliphate

Right-wing Christians share the same views as many Muslims. So why does the left never attack Islam?

Peter James It's really weird how PJW is stick ng up for the queers and homos constantly as wel as adulterers. There are plenty of things wrong with is am that you can point out with you having to stick up for filthy perverts

And the man that committeth adultery with another man s wife, even he that committeth adultery with h s neighbour's wife the ad terer and the adulteress sha surely be put to death -leviticus 20 10

If a man a,so ie with mank,nd as he lieth with a woman both of them have committed an abomination they sha surely be put to death their b ood sha be upon them --leviticus 20 13

Amen and amen Would you rather have Saudi Arabia bake them queer a wedd ng cake Pau ? Get real and wake up The way they treat queers s the least of their problems

ISIS attacked Paris because in their own words they saw it as a center of "prostitution and vice"

That isn't a misinterpretation of Islam. It's a directive taken straight from the Koran

"The penalty for those who strive upon earth [to cause] corruption is that they be killed or crucified." That's straight of the Koran

That motive isn't derived from radical Islam, or a misinterpretation of the Koran. It's derived from Islam itself, directly from the same book read preached and practiced by 1.5 billion Muslims

French liberals blame society for ISIS massacre.

> But they aren't angry, at least not at the perpetrators. "They're stupid, but they aren't evil," their friend Sabrina, an administrative worker in one of the theaters in the 11th arrondissement, said. "They are victims of a system that excluded them from society, that's why they felt this doesn't belong to them and they could attack. There are those who live here in alienation, and we are all to blame for this alienation."

And you don't get to decide whose opinions are more worthy based on their skin color, you fucking racist.

I've been mulling on the topic of freedom of speech and how it relates to how oppressors try to control the messages that are disseminated into the public sphere

For the sake of clarity:

If you are white, you do not get to decide what is offensive to black and brown people.

If you are a man, you do not get to decide what is offensive to women.

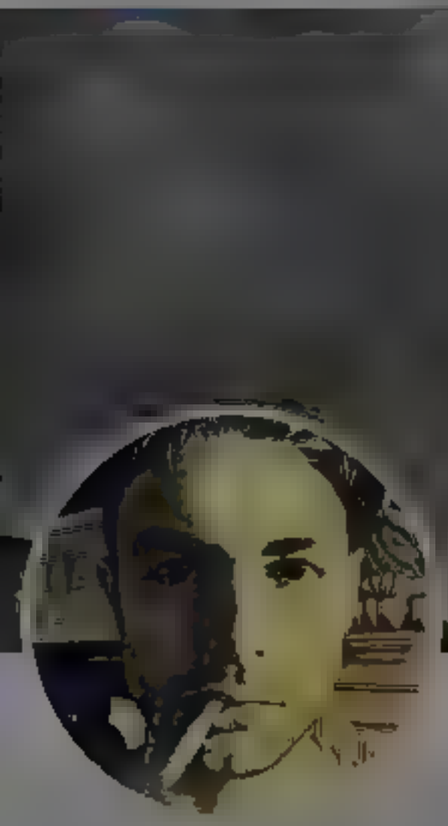
If you are cisgender, you do not get to decide what offends trans people.

If you are straight, you do not get to decide what offends lesbian, bisexual, gay, asexual or pansexual people.

Those of us who react to oppressive shit like racism, we are not infringing on your right to free fucking speech. We are simply exercising our right to tell you what is harmful, what is racist, what is offensive.

Instead of listening and attempting to create a society which welcomes all, you mount the white supremacist pony and begin screaming 'MURICA FREE SPEECH.

I get that it must be so painful for you to not freely say "nigger" out in the open, away from your safe, white spaces amongst your beer chugging friends. It must be painful for you to see some of your privilege questioned.



I'm tired of shitty journalists writing op-eds about how trigger warnings and political correctness are coddling newer generations. It isn't! We're simply saying that your opinions and actions are subject to scrutiny and reaction.

It is as simple as this. If you do not experience oppression, you have no

The irony is that the "safe spacers" are throwing tantrums to ensure the RETURN of segregation.

> These days, Fiorina said, students are getting upset over an email about Halloween costumes, while in the 1960s students protested because minorities were denied the right to vote and had to sit at segregated lunch counters.

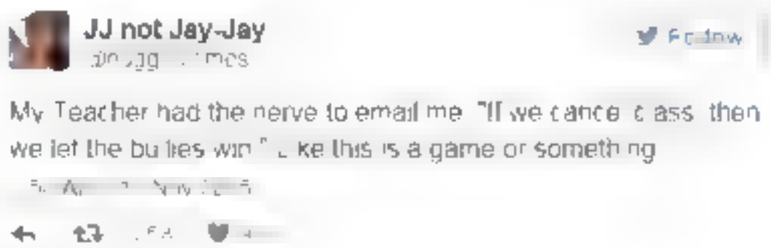
How dare the professor give the special snowflake a choice not to come to class. #PrayForMizzou



When a white professor challenged his students to come to class and "defeat" the "bullies" making threats on social media by "standing up to them" and coming to class, his e-mail drew a harsh reaction from students of color.

"If you don't feel safe coming to class, then don t come to class," wrote Dale Brigham in an e-mail to his Nutritional Science 1034 class. "I will be there and there will be an exam administered in our class.

Oh how sweet! You hosted refugees? Well I live next to them I live to the refugee camp in Sofia, Bulgaria And let me tell you if had the money I would pay for every single one of these "sweet" refugees to come to your home and to enjoy your hospitality since cannot (and this is really understatement) take any more harassment coming from the males living n this camp and they are 99% males there I cannot take their stares, their words their whistles, the fact that sometimes they walk after me making more comments. But mostly cannot take their audacity and will never wish to anyone to live through what live through on a daily basis when going and coming back from work SO please take them Take them al By all means they are yours should you want them

Racism and sexism in heavy metal highlighted in new study

[illegible]

A new study from Leeds Beckett University has revealed how the metal music subgenre of folk metal is not only a fantasy space for young white European men but also an important example of how heavy metal can be seen to normalise masculinity and whiteness, and perpetuate sexism and racism.

Or maybe they just dress up as Vikings for fun, not to oppress ethnic minorities?

"Folk metal's obsession with warriors and cultural purity displayed through tales of Vikings and dressing up as Vikings on stage reduces belonging and identity in a multicultural cosmopolitan society to a few exclusive myths. I wonder why this guy became a feminist

😄

MaryJanice Davidson added 2 new photos

My son is a member of his school's Feminist Club and came home wearing this Notorious RBG shirt, which delighted me for all sorts of reasons. I begged, cajoled, and threatened until he consented to stand still for 6 seconds so I could get a pic. His pained expression was the closest thing to a smile I could coax out of him. Feminists in Notorious RBG shirts *never* smile, they're simply too cool. Or at least, that's the theory I'm going with.

The negative connotation of being hideously obese is a 'social construct'. Mmmmmk.

> The only negativity that this word carries is that which has been socially constructed around it. Our aversion is completely learned. It's our association that is disparaging, and this is what we must change. We don't need to stop using the word "fat," we need to stop the hatred that our world connects with the word "fat." So I use it, because I have decided that it's my word now. And the more I use it positively, the more stigma I smash

The right path was the one that led to the gym.

A few years ago I decided I would no longer accept these negative labels. After a breakup for which my body was blamed, I found myself at a critical impasse, a metaphorical fork in the road. I knew that I needed to carefully choose right then and there, which path I was going to take: continue to hate my body, or learn to love my body.

This.

It's no accident that so many of the loudest voices against online comments sections are also political zealots. Jessica Valenti, Arthur Chu, Laurie Penny, Anita Sarkeesian all have come out against comment sections. This isn't an accident, of course. Psychologists have long been aware that political extremists have a greater tendency to engage in motivated information. Combine that with a disdain for free speech [illegible] and you get a frantic rush to remove the opinions of ordinary people.

Sarkeesian: We need to broaden the definition of harassment to eliminate all dissent.

"We need to broaden the definition of online harassment and abuse," said Sarkeesian. "For example someone will post a YouTube video that defames me, and then thousands of people will reply to that video and tweet at me "You liar" or "You dumb bitch." That's not a threat, but it's still thousands of people coming after me, right?"

Correcting typos is racist.

Charlie [redacted] picking up on typos or misspellings is really classist, ableist and proves you've lost, as well as answers why I don't want to respond to your "arguments"
I'm not going to respond to anything else you say because you're racist and not worth my time
Goodbye
Also admins may I suggest looking into delating certain people who clearly are only here to bring down the fight?

Job application in Norway: - I hope to slaughter you all soon

SHARE

A Muslim man living in Norway's capital Oslo threatened the unemployment and welfare center (NAV) and Akershus University Hospital in a job application. Now he must appear in court, reports TV2

The man, who is in his 20s, is accused of threats and must meet in Oslo District Court on Tuesday

In a job application to Akershus University Hospital he wrote: "I hope to slaughter you all soon."

A few weeks later, in January this year, he sent a job application to a district in Oslo, where he wrote: "I blow you all to pieces." In both applications he referred to Anders Behring Breivik (the Utøya shooter)

Yes it was a gun free zone.
seattle.cbslocal com/2015/10/01/ore
#JCCShoot ng

The community college is a gun-free campus

'Possession, use, or threatened use of firearms (including but not limited to BB guns, air guns, water pistols, and paint guns), ammunition, explosives, dangerous chemicals, or any other objects as weapons on college property, except as expressly authorized by law or college regulations, is prohibited," the college's security policy states.

Joe Olson, former president of the college, told The Associated Press the school has only one security officer on duty at a time, and that person isn't armed.

When are racists going to stop quoting the Koran?

The Koran states "O Prophet! Tell your wives and your daughters and the women of the believers to draw their cloaks all over their bodies that they may thus be distinguished and not molested."

The obvious implication is that women who aren't dressed in a Burka may be "molested"

Of course this is nonsense. The people at the center of the controversy aren't being targeted because of gender but because they're leftist activists demonizing gamers, like Anita Sarkeesian, for a political agenda.

And Anita Sarkeesian and Zoe Quinn have been front and center at rolling out the UN report. Sarkeesian complains at the UN of the "day-to-day grind of 'You're a liar. You suck'"

That's not violence against women. That's what happens when you become a professional troll who makes videos accusing Super Mario of super-sexism.

It's what happens when you're a liar and you suck. It's not sexism.

Musical chairs is capitalist indoctrination.

Text August 02 2015 740 notes

Musical chairs is a subtle game that teaches kids two things:

1) That there's not enough of a certain thing for everyone to have it; and

2) If you're the one who gets left out, it's all your fault

It's a great way to indoctrinate kids into blaming the victim who couldn't find a seat, rather than questioning the logic of the person who removed the chairs.

This seemingly harmless game is actually a lesson that shapes kids' minds as they grow up.

Hillary Clinton either has no idea what modern feminism has become, or she's lying.

> "Yes," Clinton responds. "Absolutely. I'm always a little bit puzzled when any woman of whatever age, but particularly a young woman, says something like, 'well I believe in equal rights but I'm not a feminist.' Well, a feminist is by definition someone who believes in equal rights. I'm hoping that people will not be afraid to say, that doesn't mean you hate men, it doesn't you want to separate out the world, so you're not a part of ordinary life that's not what it means at all! It just means that we believe that women have the same rights as men."

Migrant rape stories buried by media from just the last few months.

- Although the rape took place in June police kept silent about it for nearly three months, until local media published a story about the crime According to an editorial comment in the newspaper *Westfalen Blatt* police are refusing to go public about crimes involving refugees and migrants because they do not want to give legitimacy to critics of mass migration.

- A 13-year-old Muslim girl was raped by another asylum seeker at a refugee facility in Detmold, a city in west-central Germany The girl and her mother reportedly fled their homeland to escape a culture of sexual violence.

- Approximately 80% of the refugees/migrants at the shelter in Munich are male the price for sex with female asylum seekers is ten euros. Bavarian Broadcasting (*Bayerischer Rundfunk*).

- Police in the Bavarian town of Mering, where a 16-year-old girl was raped on September 11, have issued a warning to parents not to allow their children to go outside unaccompanied. In the Bavarian town of Pocking, administrators of the Wilhelm Diess-Gymnasium have warned parents not to let their daughter's wear revealing clothing in order to avoid "misunderstandings."

- "When Muslim teenage boys go to open air swimming pools, they are overwhelmed when they see girls in bikinis. These boys, who come from a culture where for women it is frowned upon to show naked skin, will follow girls and bother them without their realizing it. Naturally, this generates fear."
  Bavarian politician, quoted in *Die Welt*

- A police raid on the Munich refugee facility found that guards hired to provide security at the site were trafficking drugs and weapons and were turning a blind eye to the prostitution

- Meanwhile, the raping of German women by asylum seekers is becoming commonplace

No, @Salon I Don't Need to 'Understand' the Plight of Pedophiles - louaerw thcrowaer.com/no-salon-com-I ..

Let's remove the pedophilia aspect from this for a second and replace it with say racism. Would Salon.com run this article?

"I'm a Racist, But I'm Not a Monster" *I've never discriminated against a black man and never would. Before judging me harshly would you be willing to listen?"*

Probably not

Do you also expect to see this article on front page of Salon com

"I'm a College Fraternity Brother and I Have Rape Fantasies, But I'm Not a Monster" *I've never drugged or bound a girl and never would. Before judging me harshly would you be willing to listen?"*

Wanting all men dead is not misandry.

I want all men dead to reduce crime in this world so it can be a safer place for everyone. Misandry would be wanting men dead for no reason.

Female unhappiness has coincided with the rise of feminism. breitbart com/big-government ...

Sorry no offence, but it s true women have been getting steadily unhappier since the Second World War when they first entered the workplace in large numbers It sounds bizarre but ever since the rise of feminism every decade has seen another slump in female morale Women now report themselves more generally depressed and more likely to think about suicide than at any time in history (The vast majority of suicides are still men by the way Women talk about it endlessly but rarely pull it off)

Gustav Emarsson
This video is so full of ignorance
Yes it is racist to have RACIAL PREFERENCES when it comes to sex. Just as it is racist when having racial preferences on employment or friendship
I think dolls town communities being segregated in many western countries. A lot of white westerners don't interact a lot with ethnic minorities because each group lives in different ethnic 'areas' of the city
Here in Malmo, Sweden there is a municipal project to allocate social housing to mixed couples and mixed persons. So for example one hour block half full and only has white people in it then people from more vulnerable ethnic groups like Africans or Arabs will be given priority in the waiting list to fill the second half of that building. It has worked great for community cohesion know it is just a small step but it's one in the right direction if we wish to fight against the veiled form of racism

Re

@Gustav Emarsson Yes 'community cohesion' is working great in Sweden. Your 7400% increase in rapes since you opened the doors to mass immigration is really a progressive sign of tolerance

1/4 of Germany's population to be immigrants?

Anonymous ID [illegible] D10% [illegible]

Honestly, thought what do Germans feel about this?

Was guys said you'd get 600k but you ended up getting around 1m

Now your own government has pretty much said that it'll take in at least 500k /supposedly probably more/ per year for several years

This would mean getting about 2.5 million new immigrants just in the next 5 years. Considering that they have around 3 children each in a very conservative prediction that might mean a total of 10 million muslims being integrated in Germany

Currently, have 80 million people living there and 7 million are already immigrants with no citizenship and an unknown number have earned the German citizenship and are not being accounted for

So again, conservatively, that would mean having a total of around 25 million immigrants in a 90 million population, which is almost 1/4 of our people. Which is even scarier if you consider that the actual german population is getting smaller by the year

Let this sink in for a moment
